RESPONSE TO PATENT OFFICE ACTION OF MAY 14, 2009

Hon. Commissioner of Patents
P.O. Box 1450
Alexandria, VA 22313
SIR:

This is in response to the Office Action mailed on May 14, 2009, and setting a shortened statutory period for response of one month to expire on June 14, 2009. Applicant petitions that, if required, the time for response be extended and the corresponding fee be charged. The Commissioner is hereby authorized to charge any additional fees, which may be required to Acct. No. 11-0224. Applicant further respectfully requests that this response be accepted as a bona fide effort to meet any potential response requirements outstanding and due in the above captioned matter.

The Office Action of May 14, 2009 states that the replies filed on 2/4/2009 and 2/7/2009 are not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant's amendments are working from a copy of the application which the US patent office does not have on file and as such is not responding to the office action. As noted by applicant, missing amendment was filed 5/20/2005. Since this is prior to the US filing, while in the PCT stage, the examiner suggests applicant contact the PCT help desk 571-272-4300 or it may be easier if new matter is not a problem that applicant simply make all the amendments to the copy of the application currently on file and include those which were missing. Since the above-mentioned reply appears to be bona fide, applicant is given ONE (1) MONTH or THIRTY (30) DAYS from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR

Applicant encloses a revised description of the invention, with revised claims and a revised abstract which are basis of the U.S. application (entry into the national phase from the PCT application). In addition, the applicant submits a copy of the Demand under Article 31 which contains a text of the description, claims and abstract as amended by the International Bureau under Article 34 which is identical as the text of the revised description, claims, and abstract.

Acceptance of the revised description of the invention, revised claims and revised abstract as a ground for examination of the U.S. patent

application (entry into the national phase of the PCT patent application) is respectfully requested.

Respectfully submitted,
Małgorzata Wesołowska
